Report: Expert Lecture on “Context Aware Computing in IoE : Security and Privacy Issues”

The Information Technology Department organized a guest lecture and interactive session on the topic “Context Aware Computing in IoE : Security and Privacy Issues”, as part of the SCET R&D Lecture series. The R&D Lecture series aims to keep the students and faculty members abreast of the emerging areas of Information Technology and to motivate them for research. The talk was attended by around 126 students as well as faculty members from the Information Technology, Computer and Electronics & Communication Engineering Department. The details of the guest talk are as below:

<u>Topic</u>	Context Aware Computing in IoE : Security and Privacy Issues
<u>Speaker</u>	Dr. D. C. Jinwala, Professor, NIT Surat
<u>Date/Time</u>	08/09/2017 at 11:00 AM
<u>Venue</u>	N. J. Seminar Hall, SCET
<u>R & D Session Co-ordinator</u>	Dr. Vivaksha Jariwala, Associate Professor, I.T. Dept

Highlights of the R & D Session:

Dr. D. C. Jinwala delivered an interesting talk on “Context Aware Computing in IoE : Security and Privacy Issues”, which is in the area of Information Security. The lecture discussed the motivation for Contextual Privacy in recent applications of IoT. The session also covered the necessity of security attributes in Context aware computing. The lecture was followed by discussion and Q. & A. Session with students and faculty members.
