**5<sup>th</sup> March, 2016**

Computer Engineering Department had organized an interactive session on **Node JS and MongoDB** for the CO third year students on 5th March 2016 initiated by SCET Alumni Association under the banner of “Share What I Gain”.

The purpose of the interaction was to facilitate a talk between alumni and our present third year students in order to gain information regarding **Node JS and MongoDB**. Around 80 students of B.E.-III Computer Engineering had attended this session.

## About the Alumni:

The invited alumnus for this session was Mr. Parth Joshi (Email : joshiparthin@gmail.com), who is a Startup Techno - Consultant | Corporate Trainer and the Founder, yieldNOTION.

## Highlights of the interaction:

- The contents covered during the session are as follows:
  - Conventional web development scenario
  - Evolution of MVC and mobile clients
  - Need for existence of Node.js like languages
  - Sneak peak at Node.js
  - Shifting from RDBMS to document database
  - From SQL to JavaScript
  - Sneak peak at MongoDB

Some glimpse of the session are as follows:
