ABOUT ENVIRONMENT CLUB, CED, SCET

Department of Civil Engineering, Sarvajanic College of Engineering & Technology has established 'Environment Club' with an objective to develop a holistic platform to foster technological solutions to environmental issues and raises awareness for the same. To encourage research culture and orient students towards the same, the club works in harmony with Research & Development Cell on various projects.

Conceived in 2018, the club has nurtured under the mentorship of Dr. Mehali J. Mehta. The club has ensured that it constantly maintains an upward trajectory towards creating environmental awareness footprints.

Vision:

The club remains committed to raise technological and social awareness on environmental conservation by vital contribution of the community and dynamic participation of the students.

Mission:

To inculcate an inclination towards research by harmonious integration of student teams across academic hierarchy through creative, critical and collaborative work. To ingrain responsible attitude towards natural resources and sensitize students towards the same. To stimulate action-based programme and render solutions to various environmental issues through technical endeavors. To develop and improvise performances of green materials and systems for sustainable infrastructures

To achieve the above stated goals, under the guidance of club mentor Dr. Mehali Mehta with the help of club members organized expert lectures and various activities. The main goal of these activities was to generate social awareness amongst the students of the institute and to improve technological knowledge in the field. Some of the activities had been continuously carried out throughout the year. The details of these activities are given in the next sections.

SOME GLIMPSES OF THE EVENT

Acknowledgement:

We are thankful to SES and SCET College for the cooperation and inspiration. We are also thankful to ISTE- SCET student chapter and members of Environment Club of Civil department for the efforts towards arranging the program.
