Report on Expert Talk

World Entrepreneurs' Day

Date: 20th August 2026

Event: Expert Talk on Entrepreneurship and Personal Excellence

Speaker: Mr. Chitrak Desai, Chief Marketing Officer of Gplife Wellness

Audience: Students of Instrumentation & Control Department

To celebrate World **Entrepreneurs' Day**, an insightful and inspiring **Expert Talk on Entrepreneurship, Leadership, Discipline, and Personal Excellence** was organized by Instrumentation & Control department for the students from First Year to Final Year. The session provided students with an opportunity to learn from the remarkable journey and diverse experiences of **Mr. Chitrak Desai**, an accomplished entrepreneur, corporate professional, sportsman, martial artist, and business leader.

An important and thought-provoking concept discussed during the expert talk was **Ikigai**, a Japanese philosophy that encourages individuals to discover a meaningful purpose in life. Mr. Chitrak explained that Ikigai can be understood through the intersection of four key elements: **what we love, what we are good at, what the world needs, and what we can be rewarded or paid for.**

He encouraged students to reflect on their interests, strengths, values, and career aspirations rather than choosing a career solely based on external expectations. The concept highlighted the importance of finding a balance between **passion, talent, purpose, and profession**. Students were encouraged to explore different activities and experiences during their academic journey so that they could gradually identify their own areas of interest and purpose.

Mr. Chitrak's journey is a remarkable example of how **education, discipline, perseverance, and continuous learning** can contribute to success across different fields. He completed his Bachelor's degree in **Instrumentation and Control Engineering from SCET in 2006 as a Gold Medalist**. During his academic journey, he was recognized as the **Student of the Year for three consecutive years** and was also honoured as the **Sports Person of the Year for all four years of his college journey**.

During the expert talk, students were introduced to the importance of developing a **multidimensional personality** rather than focusing exclusively on academic performance. His journey demonstrated how technical education can be complemented by management knowledge, entrepreneurship, sports, leadership, and personal discipline. He further shared his experience of pursuing an **MBA in Marketing and Sales in the United States**, highlighting the value of acquiring knowledge beyond one's core academic specialization.

A major focus of the session was **discipline and determination**. Mr. Chitrak spoke about his extensive involvement in martial arts and sports. He holds a **Second-Degree Black Belt in Karate** and **First-Degree Black Belts in KUDO, Kenjutsu, and Taekwondo**. He is also a trained **Krav Maga instructor** and has experience as an assistant trainer associated with personnel from the **BSF, Army, and commando forces**. His sporting achievements, including national-level participation in veteran badminton and involvement in athletics, football, and skating, served as powerful examples of commitment and perseverance.

The students were particularly inspired by his achievement as a **two-time Guinness World Record holder**. This achievement reinforced the message that extraordinary results are possible when individuals are willing to challenge their limitations, remain consistent, and work with determination toward their goals.

The interaction proved highly beneficial for students from **First Year to Final Year**, as the speaker's experiences offered valuable lessons relevant to students at different stages of their academic and professional journeys. The session motivated students to think beyond conventional career paths and to recognize the importance of **self-discipline, resilience, innovation, leadership, and lifelong learning**.
