Introduction

On 12th November 2025, Research & Development cell, SCET has organized a talk on " IPR Management" for the students of Information Technology department. The talk was delivered by our esteemed guest Dr. Anish Gandhi. The event aimed to provide valuable insights into the intricacies of intellectual property rights and effective IP management strategies.

About the event

The session was delivered by Dr. Anish Gandhi, a distinguished legal practitioner in the field of Intellectual Property Rights (IPR) and Director of IPSecure Services. The objective of the session was to provide in-depth knowledge about intellectual property rights, patentability criteria, patent filing procedures in India, and the strategic management of IP assets in academic and industrial domains.

Objectives of the Session:

The session was organized with the following objectives:

- To create awareness about Intellectual Property Rights (IPR)
- To explain patentability criteria and legal requirements
- To understand the Indian patent filing process
- To highlight the importance of protecting research outcomes
- To promote innovation-driven entrepreneurship
- To guide students and researchers in effective IP management

Participation Details:

The students of various departments were present at this event. A total of approximate 120 students from first year to final year, having interest in start-ups and entrepreneurship participated in this session to gain insights of the norms and the legal laws the govern the overall formulation of a business set-up.

Event Highlights:
