A Report on

Presentation on **“Breast feeding awareness”** by
Students of Sheth P.T. Mahila College of Arts and Science

on
19th August, 2019, 03:30 pm to 04:30 pm

Organized by

Women's Development cell (WDC), SCET

World Alliance for Breastfeeding Action (WABA) is a global network of individuals and organizations dedicated to the protection, promotion and support of breastfeeding worldwide. Annually, WABA coordinates and organises the World Breastfeeding Week (WABA) between 1 August to 7 August. Since last many years, Sheth P.T. Mahila College of Arts and Science have aligned their WBW campaign to United Nation's Sustainable Development Goals (SDGs).

The UNICEF has targeted to achieve 100% Breast feeding to the new-borns of the world. To achieve the target and to develop Breast Feeding awareness among the young college students (future parents), students from the department of Food Science and Nutrition of Sheth P.T. Mahila College of Arts and Science in collaboration with Indian Academy of Paediatrics are conducting Peer group training seminars since last many years.

To promote and support breast feeding, the presentation was arranged in SCET by a group of five students. They were accompanied by Dr. Salim Hirani (paediatric) and Smt. Minakshi Tripathi (program coordinator, Sir P.T. Mahila college).

In the presentation, students displayed the importance of breastfeeding and also laid emphasis on the consequences of not feeding them. Dr. Hirani highlighted the benefits of breast feeding. He also encouraged breast feeding for better health of both babies and mothers.

The presentation was fruitful and was appreciated by the audience.

Co-ordinated By: Team WDC, SCET (2019-2020)
