TOWARDS PROGRESSIVE CIVILIZATION ...

Faculty of Civil Engineering has organized an expert talk on “Practical Construction Management” on 19th January, 2018 for B.E. Civil (Third year and Final year) students. The main objective of the expert talks to explore the practical aspects of Construction Management. Around 75 students had attended this session.

The expert contents were delivered by Er. Jigar Shah, PMP (PMI, USA), Oracle Certified Specialist for Primavera, Surat. With total 13 years of experience in the field of Project Execution & Management. He is providing Project Management Training for Primavera, MS Project & Project Management Concepts from June 2008. He has done PMC works for total industrial plant including CETP, 18 T Boiler, 8 KL Spray Driers, MVRE Plant, UG tanks, RCC Chimney, Office Building (Green Building) etc. for Ankleshwar Cleaner Process Technology Centre Ltd (Approx. 100 Cr) including all basic infrastructure at Ankleshwar.

The contents covered during the session include:

- **Introduction about PMI®, USA**
- **Current Market Requirements**
- **Building Approval System**
- **Practical Exercise on Drawing Reading, Analysis & RFI (Electrical Drawing)**
- **Practical Exercise on Transferring Levels**
- **Why to do Project Management?**

Some glimpses of the session are as follows:
