Introduction

National Science Day is a celebration and recognition of CV Raman's contributions to science and technology, a man who left behind a legacy that continues to inspire generations worldwide. 28th of February is recognized as a national science day. The first celebration took place on February 28, 1987.

The theme for National Science Day 2025 was " Empowering Indian Youth for Global Leadership in Science & Innovation for VIKSIT BHARAT."

The basic objective of the celebration of National Science Day in India is to spread the message of the importance of science and its application among the people.

National Science Day celebrates India's scientific progress and commitment to innovation. With advancements in quantum computing, AI, geospatial technology, and climate research, alongside initiatives fostering inclusivity and young talent.

About the Event

To promote and encourage the students of SCET, the Department of Applied Science and Humanities under the banner of IIC Cell, at SCET had organized two events (i) "Science Quiz and (ii) Poster presentation for Engineering students. MCQ based quiz was conducted. There was a poster presentation based on the theme of the science day that includes the topics:

- (i) **Science and Technology for sustainable future.**
- (ii) **Impact of science on society**
- (iii) **Science and Humanities.**

Students had to make poster on any one of the above topic and had to present it in the 3 minutes time limit.

The Event was scheduled as below:

Date: 28th Feb. 2025

Time: 2:00 pm to 4:30 pm.

Venue: EC AV- Room and IC-AV Room, SCET.

From 2:00 pm to 2:30 pm students had to solve 30 science quiz MCQs in 30 minutes. From 2:30 pm onwards there was a poster presentation event.

Details of Participations

The event witnessed active participation from students of the 2nd Semester of all branches. Approximately 130 students participated in the Science Quiz. and 10 students participated in poster making competition. Winners were awarded a Memento.

Such events encourage students to explore science and its impact on society. Students gain knowledge about prominent Indian scientists and their contributions to the field of science. Competitions like science quiz and poster making promote creativity and encourage students to think about innovative solutions to problems.
