SCET organizes the technical festival '**Kshitij – AnantGyan Ki Talash Mein**' annually since 2002. This techfest is conducted for the young brains to boost their technical knowledge and showcase their innovative and creative skills.

Inauguration of Converse 2019:

The inauguration of Converse 2019 under the banner of Kshitij was held on 6th September, 2019 in Information Technology Lab by the entire faculty members of IT department with energetic students which gave more enthusiasm for the whole event.

The Information Technology department organized 'Converse, Have your say...' under the banner of Kshitij 2019 on 6th and 7th September, 2019. The event received phenomenal response from all student participants which made the event a successful one. This year following categories of events were conducted in Converse under the banner of Kshitij 2019.

- WYSIWYG – (What You See Is What You Get) Website Designing Competition.
- Relay Coding – C/C++ Programming Competition.
- Image IT – Poster Making Competition.
- PY IT – Practice Your Interview Test.
- IT Quiz -
- C Quiz- C language based quiz competition.

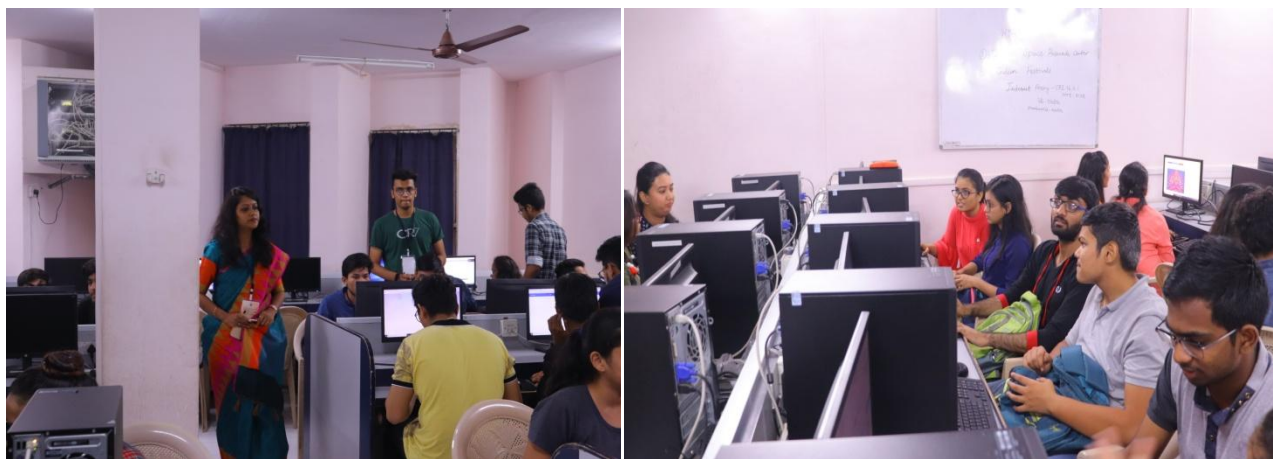

Brief sketches of all the events are described below.

1. WYSIWYG: (What You See Is What You Get)

A responsive website gives better experience to the user. So, this event was mainly conducted for the students to improve their creative skills in designing a website using software tools such as Wordpress, HTML, CSS, Visual Studio IDE etc. The themes given for designing were:

- Indian Space Research Center
- Indian Festivals

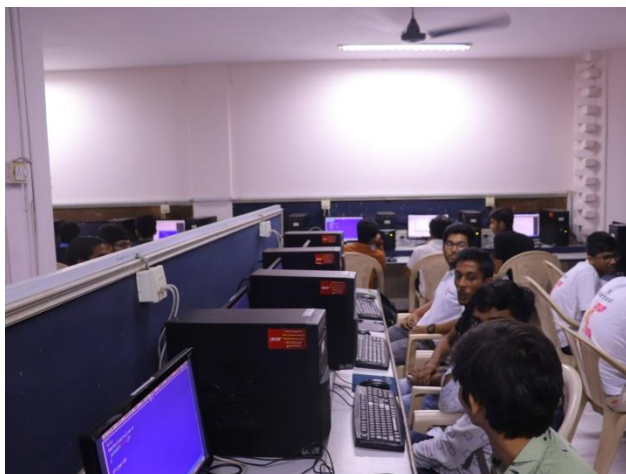

The faculty head for this event was Prof. Bhumika Patel. There was overall participation of 50 teams in this event.

2. Relay Coding:

This was a coding competition in which students were given a particular problem that should be solved through their programming skill in C/C++. Students participated in group of 2 members. First team member started coding for the given problem statement for 30 minutes. After completing first half of the coding, next team member completed the coding in next 30 minutes. Complexity was taken depending upon completion of the task if both the teams at the same time.

The faculty head for this event was Prof. Tushar Gohil. There was overall participation of 98 teams in this event.

3. Image IT: Poster Making Competition:

In poster making competition students made colorful posters on some technical and general themes given to them. The event comprised of team of two students. Each team made posters on the below mentioned themes:

- Three Wings of Indian Army
- Augmented Reality - Virtual Reality
- Chandrayan - 2
- Role of 'Make in India' for 2022

The event was headed by Prof. Dhruti Sharma. There was overall participation of 60 teams in this event.

4. PY-IT: Practice Your Interview Techniques

PY IT event was focused on enhancing the interview-giving skill of students. The event comprised of three rounds. It started with the online aptitude test in which the questions were based on quantitative aptitude, logical reasoning, data interpretation and general knowledge related to IT. The second round was group discussion in which shortlisted students from first round were involved to showcase their presentation and leadership skills by expressing their view on a particular topic in a group. The final round was personal interview in which the qualified students from group discussion faced the direct interview with the interview panel of faculties, which gave them more confidence as and when they appear for interview in companies.

The faculty heads for this event were Dr. Mita Parikh and Prof. Mukesh Patel. There were total of 176 entries for PY-IT.

5. IT Quiz:

This was an online quiz competition in which multiple choice questions were given related to the field of Information Technology. The students got good opportunity to improve their knowledge related to IT field.

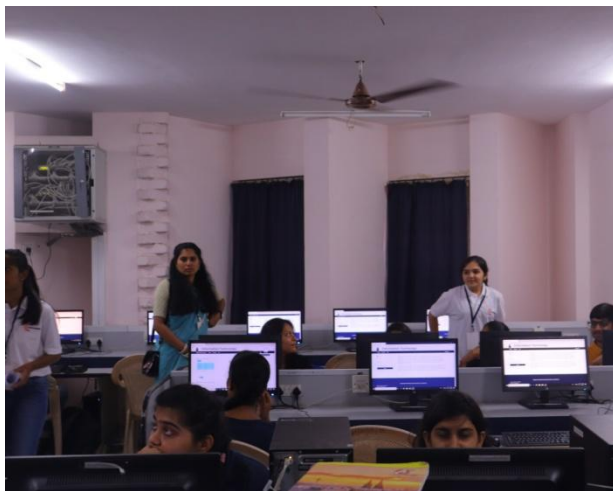

The faculty heads for this event were Prof. Ashish Kharwar and Prof. Apurva Mandalaywala. There were total of 266 entries for IT Quiz.

6. C Quiz:

This was also an online quiz competition where multiple choice questions were given related to C programming language. C Quiz event was organized only for first year students to improve their programming knowledge since from their first year of college itself.

The faculty heads for this event was Prof. Mukesh Patel. There were total of 109 entries for C Quiz.

Participation Details:

Event Name	No. of Participants
WYSIWYG	100
Relay Coding	196
Image IT	120
PY-IT	176
IT Quiz	266
C Quiz	109
Total	967

Prize Distribution/Valedictory Function:

The valedictory ceremony was held at IT classroom wherein prizes and certificates were awarded to winners, participants and volunteers. The snapshots of prize distribution are given below.

Acknowledgements:

We would like to thank SES management for providing the infrastructure and support in conducting the event. Also we heartily thank SAWC for providing the fund to conduct the event. We would also like to thank Dr. Vivaksha Jariwala, Head of Department for her more support and guidance in conducting Converse 2019. Main thanks to all the faculty members who gave their full support in all the events. We are also thankful to non-teaching faculty behind the events. Special thanks to entire student coordinators and entire student team without their utmost effort to make the event victorious. Finally, we thank all the participants without whom the event would not been conducted.
