Prof. Ankit Patel

Dr. Vivaksha Jariwala

**HoD, IT Department**

## Introduction

A seminar on "AI: Jobs and Future" was conducted to provide insights into the evolving landscape of artificial intelligence and its impact on employment. The event aimed to educate students on emerging opportunities and challenges in the AI-driven world. The session was led by Mr. Dhaval Kalsariya, an esteemed SCET alumnus, serial entrepreneur, and content creator.

## About the event

The seminar was organized to help students understand the transformative role of AI in various industries and its implications for future job markets. The event provided a platform for students to gain knowledge from an expert in the field and explore potential career paths in AI and related technologies.

## Participation Details:

The seminar witnessed active participation from students of the 6th Semester IT and AI-DS branches. Approximately 140 students attended this event with an eagerness to witness the current market scenarios with adoption of AI. The enthusiastic involvement of students showcased their keen interest in understanding the dynamic role of AI in shaping careers and industries.

## Event Highlights:

### Welcome Remarks and Introduction of Guest:

The event started by welcoming the expert speaker. A brief introduction about the speaker was given to the audience. Ms. Heena Panchal warmly welcomed the guest speaker, Mr. Dhaval Kalsariya, and introduced his notable achievements. His journey as an entrepreneur, designer, and founder of AI-powered Simple Studio and Human Design Studio was highlighted in the Introduction. His vast experience of over 10 years in content creation and designing on platforms like Instagram and YouTube was also acknowledged.

### Keynote Address:

Mr. Dhaval Kalsariya delivered an engaging and insightful keynote address on AI's influence on jobs and the future. He emphasized the growing integration of AI in various industries and how automation is reshaping traditional job roles. He also discussed new career opportunities arising due to AI advancements and provided guidance on how students can equip themselves with relevant skills to stay ahead in the job market.

The session covered key aspects such as:

- The rise of AI-powered automation and its impact on employment.
- Emerging job roles and skills required in the AI domain.
- The significance of continuous learning and adaptability in an AI-driven world.
- Entrepreneurial opportunities in AI and digital content creation.

## **Conclusion:**

The seminar was highly informative and provided students with valuable insights into the future of AI and employment. Mr. Dhaval Kalsariya's expertise and practical experiences made the session engaging and thought-provoking. The event successfully equipped students with a clearer perspective on how AI is shaping the workforce and how they can prepare for the future. The session concluded with an interactive Q&A, allowing students to clarify their doubts and seek expert advice on career prospects in AI.

We express our heartfelt gratitude to the Provost, Principal, Expert Speaker of the session, faculty members and dear students for attending the event and making this event a success. As we look forward to the coming years, we aspire to continue this tradition of spreading knowledge and incorporating them for betterment of society.
