Report On Industrial Visit at GO Cheese Factory

“The thumb rule of any technology used in a business is that automation applied to an efficient operation will magnify the efficiency.”

-Bill Gates

Without change there is no innovation, creativity, or incentive for improvement. We the team at MCA department is continuously striving & succeeding in arranging visits to places where technology has reached the excellence. This year the visit was planned & arranged at Asia's biggest cheese manufacturing plant (Automated) for our students.

Highlights of Industry Visit:-

1. Importance of computer application in dairy industry.
2. Video presentation on establishment of go cheese plants along with detail product range description.
3. Visit to Bhagyalaxmi Dairy Farm.

|------------------------|---------------------------------------------------------|
| Date: | 13 th to 16 th October 2022 |
| Coordinated by: | Prof. ZankhanaVaishnav and Mr. Mayank Jain |
| Accompanied by: | Prof. Kaushika Pal & Mr. Mayank Jain & Ms. Margee Rawal |
| No of Students: | 56 students from MCA II (Sem III) |

The industrial tour to Manchar-Pune was started on the evening of 13th October 2022 from Surat. On 14th October we had a guided tour to the Go Cheese Plant owned by Parag Milk Food. We were shown the Rotolactor (German technology) where up to 20 cows step onto a rotating platform and are milked with automated pipes attached to their udders. We were also given small shots of milk under their Pride of Cow brand.

After the lunch, the visit to the GO Cheese World, where cheese is made after the milk is extracted from the cows. The Go cheese manufacturing is one of the largest plant in Asia with the capacity of 40,000 kgs of cheese.

The Evening ended with a cheese tasting session along with cheesy goodies. We tried more than 10 different cheese varieties. All in all, a very informative trip and session.

On 15th, we had a sightseeing in Matheran. The place is good for those who do not mind walking. It is peaceful place, pollution free, with lot of trees & greenery throughout the year. The views from various points are amazing. Charlotte Lake is one of the most beautiful spots in Matheran. Water

from Charlotte Lake over flows during monsoons & forms beautiful waterfall. We all enjoyed there & then proceed to the lord point. All students enjoy one day close to nature and at evening we all returned to Surat.

Some quick look of Visit_

We thank our own **Head of the Department Prof. Prashant Keswani** who is always there to motivate and gives ample amount of space to flourish.
