

INDUSTRIAL VISIT

Himalaya cotton yarn ltd.

Date: 6th November 2015

Address: Plot No B 18/14-15-16 Hojiwala Industrial Estate,

Sachin Palsana Road, Sachin, Surat - 394230

Textile Technology department of SCET college had prepared a trip to HIMALAYA COTTON YARN LTD, under the guidance of Prof. Hiren Amin. This visit was initiated by 23 student of TT department studying in 2nd Year. Himalaya cotton yarn Ltd. is well known for cotton and PC yarn manufacturing. This event was headed by Dr. P. A. Khatwani (HOD of Textile Department).

The plant has an entire sequence of spinning line, consisting of a number of machines from blow room to spinning. It consists 60% of the latest technology and 40 percent of old machines. The machines include Blowroom → Carding → Draw Frame → Ring Spinning. It also consists of a workshop for proper management at the time of breakdown. It is

into manufacturing of cotton and polyester yarn. Mill has no. of workers working at high efficiency.

At Himalaya cotton yarn ltd, students learned about the production process & management, and human resource management practices. They understood the technical aspects of manufacturing yarn of varieties of designs and quality and the working of the machines being used for production. The production planning and scheduling activities were found interesting by the students. They also collected information on the company's efforts on product innovations, productivity improvement and cost reduction.

They enhance their knowledge about the safety regulations and practices being followed. The students also inquired and solved their queries in discussion with the technical staff and managers. The students gained knowledge about the products being exported and other specifications. **Special thanks to Mr.Ravi Raj desai.**
