“Competitive Exams as Carrier options: Sharpening Aptitude Skills”

By

Dr. Bhavin Desai

Mr. Rohan Garg, IIM-C

Dates: 28th December 2016

Venue: Project Lab, Chemical Engineering Department, SCET

Organized by,

Chemical Engineering Department

Sarvajani College of Engineering & Technology, Surat

Chemical Engineering Department organized one day workshop on “**Competitive Exams as Carrier options: Sharpening Aptitude Skills**” on 28th December 2016. The workshop was conducted by Mr. Rohan Garg, IIM-C and more than 32 students enthusiastically participated in workshop from pre-final and final year, Chemical Engg. Dr. Bhavin Desai gave a complete knowhow of **Competitive Exams as Carrier options** in his opening session and then the session was took over by Mr. Rohan Garg who covered following topics during his session,

- Weightage of Aptitude in GATE
- Solving difficult maths problems through simple Vedic maths, shortcut methods, probability etc.
- Logical reasoning and related questions
- Verbal and few preparation guidelines for same.

His presentation was also aided by amazing facts and figures to which students were left perplexed. The session after lunch was kept for discussion of important formulae and “short method tricks” for solving problems. The session ended with an hour test on Aptitude skills.

It was really a very fruitful session and students enjoyed along with learning new solving methods.
