

2ND CHEMICAL ALUMNI MEET 2016

31ST DECEMBER, 2016, TIFAC SEMINAR HALL

2nd Chemical Alumni Meet organized on 31st December 2016 was a super success with more than 35 Alumni actively participating in the meet from various batches. The aims of gathering Alumni of different batches on single platform turned out beautifully & were able to interact with them, share their feelings & suggestions & reveal our expectations from them. Event commenced as we welcomed all the alumni at entrance and gave them bunch of forms Alumni Feedback, Employer Survey and Alumni Information forms which they returned duly filled before leaving the campus.

The gathering was welcomed by Dr. Rakhi Mehta, HOD, Chemical Engineering, where she addressed the Alumni shared her feelings, expectations and took their views and revealed the importance of networking.

It was followed by introductory and interactive session with Alumni, who shared their experience during their journey in SCET and revealed the expectations of Industries from passing out students. Few of them gave very important tips and information for how to prepare to get industrial jobs and showed their readiness to provide vocational training to our final year students for the same.

A novel practice of setting a **Souvenir shop for the Alumni** was inaugurated during the meet. Different souvenirs were made to order and displayed during the meet so that the alumni can take home a lifetime memory. Souvenir shop idea was conceptualized by Prof. Vishad Desai and beautifully executed and made a reality by inputs of Prof. Ashish Parmar & Prof. Mazhar Multani. Entire staff enthusiastically participated, involved and gave their best contribution in making this meet a gala success.

Our current chemical engineering students prepared and performed beautiful acts of music, poem and skit amongst the gathered august audience. It was really a fortunate site to see 'AAJ' performing for 'KAL'. After an informal discussion group photos were taken and everyone enjoyed Hi-Tea.

The event would not have been possible without the support of our respected Principal madam Dr. Vaishali Mungurwadi and SCET management. Event got its charm and vigour due to the diligent and integrated work of entire staff members of Chemical Engg and our beloved students.

In a nutshell 2nd Alumni meet proved to be a bigger and better version of 1st Alumni meet of Chemical Engineering Alumnus. Everyone parted with a feeling of accomplishment, joy of meeting and a spark to do something for their Alma Mater SCET.

Hope this tradition will continue and will be able to gather many more alumni and proves our statement of "SHARE WHAT I GAIN"
