RISE & SHINE

As a Brand.....

By
MR. ANAND BHATNAGAR

Chemical Engineering Department, SCET organized a One day Motivational Workshop on topic **RISE & SHINE..As a Brand!!!** By Mr. Anand Bhatnagar, Asst. VP at Reliance Industries Ltd., Mumbai on 20th February, 2016.

The Workshop was a grand success with a participation of more than 240 students and 20 staff members from SCET.

Mr. Bhatnagar astonished everyone in the Hall with his magnificent style of connecting with the audience. He drew us through a journey from negative mind sets, low goal settings and expectations from life to a total positive outlook, phenomenal vision and a paradigm shift towards ultimate optimism. Many different aspects were covered such as Power of Discipline and Habits, How to create a value added character to be upright citizens, vision of life, looking to the positive side of problem during trying conditions, How to be a brand, Introspection and many interactive activities. Excellent

demonstrations from our scriptures made it even more interesting and live.

Encouragement and inspiration goes a long way in boosting the confidence of a person. Driven by the same thought, we felicitated all the young achievers of Chemical Engg. Branch from 1st to final year with a letter of Appreciation and they were awarded by Mr. Bhatnagar himself. All the participants received a participation certificate.

The entire event was enthusiastically managed by students of Department who also organized lunch for everyone at Canteen.

It was really a fulfilling experience and awesome feeling of being UNIQUE was inculcated by the eminent speaker in to each one listening to him. He concluded with the words,

“YOU ALL ARE DESIGNER PIECE...ONE OF ITS KINDS...UNIQUE” you need to identify your strength and work on it.

A spark of new hope in eyes and an attitude to do the best.....was the after effect of this Workshop.

RISE
AND

SHINE

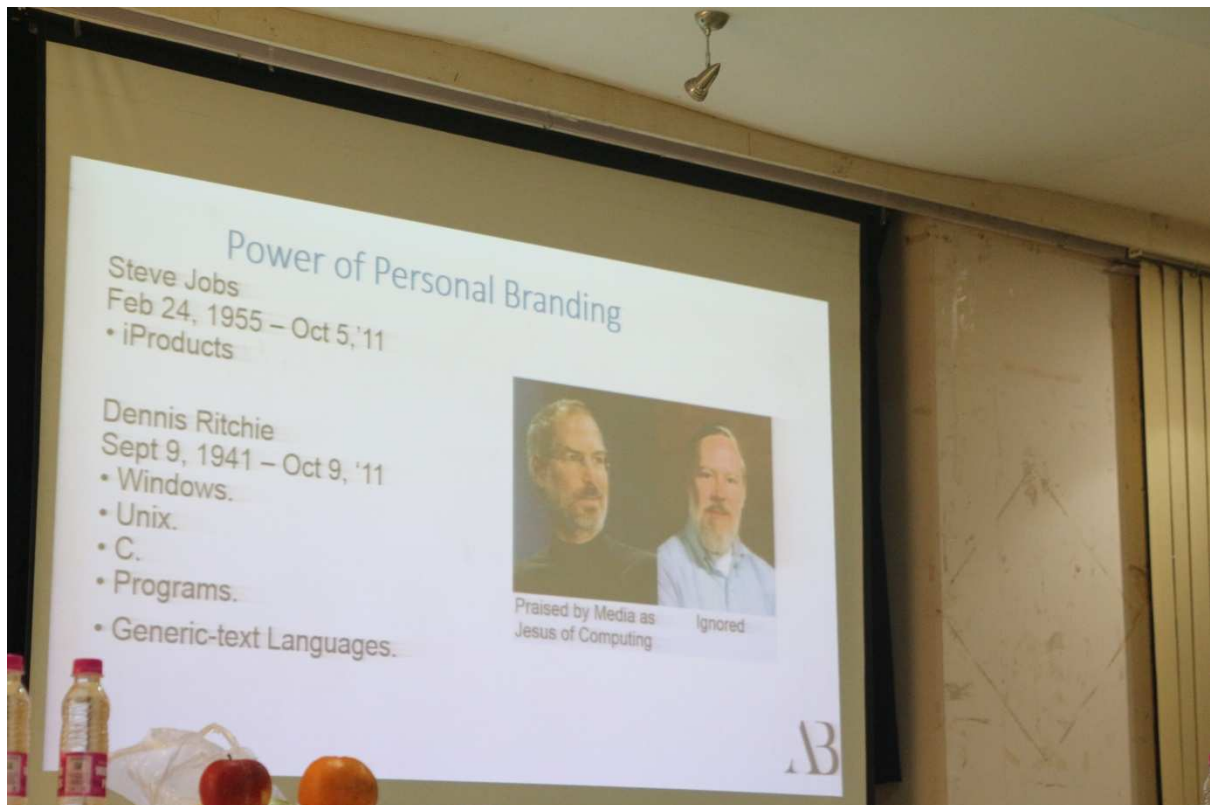

CHEMICAL ENGG. DEPARTMENT

WELCOMES
YOU

ACTIONS SPEAK MORE THAN WORDS !!!!!
