

**SARVAJANIK COLLEGE OF
ENGINEERING AND TECHNOLOGY**

**National Service scheme
(NSS)**

**Blood Stem cell Awareness and
Donor Registration Session**
At DATRI (Blood Stem Cell Donor Registry)

DATRI (Meaning : Donor, in Sanskrit) is a not-for-profit organization that was founded in 2009 with a **mission to save lives** of those **suffering** from life threatening **blood disorders** like Blood Cancer, Thalassemia, Aplastic Anemia etc.

DATRI
Blood Stem Cell
Donors Registry

A blood stem cell transplant can save the lives of such patients. With very few registered donors available in India, the possibility of finding a match for an Indian anywhere in the world is very bleak.

DATRI is working towards creating a wide and diverse database of potential blood stem cell donors that can be accessed by any patient, living anywhere in the world, in need of a blood stem cell transplant. Through systematic donor drives, DATRI seeks to build awareness and enroll potential blood stem cell donors.

SARVAJANIK COLLEGE OF ENGINEERING AND TECHNOLOGY

National Service scheme (NSS)

We students of the SCET volunteered on **26th January, 2017**. First at near Sumul Dairy and after that in Varachha. It's pleasure to share that, with the help of **DATRI team** and **SCET volunteers**, we were able to registered **654** Blood stem cell donors from both of the places.

Hence, **SCET** helped **DATRI** in working towards creating wide and diverse database of potential blood stem cell donors that can be access by any patient, living any where in the world, in need of a blood stem cell transplant and **“Took the first step towards saving someone's precious life”**.

Name of volunteers :-

- Prince Kasundra
- Keval Vaghasiya
- Ruchita Kaneriya
- Kushang Mistry
- Krishmin Vekariya
- Parth Gohil
- Keyuri Padsala
