

VISIT OF IRRIGATION CIRCLE SUB DIVISION

As a part of curriculum under the subject of **“Hydrology and Water Resources Engineering and Collection and Conveyance of Water and Wastewater”** offered to B.E III year Civil Engineering (Sem- V) and M.E I year Environment Engineering (Sem-I) respectively. Total 80 students have visited Irrigation Circle Sub Division, Rander on 1/10/2018. The students were fortunate to have detailed explanation of the weather station which includes different types of Rain Gauge, Evaporation Pan, various meteorological parameters measuring instruments like Wind Vane, Anemometer, Hygrometer and Ambient Temperature measuring Unit and Sunshine Recorder. I would like to thank Head of the Department Dr. Jigar Sevalia for continuously motivating us to arrange academic trips to gain field based experience. Some glimpses of the plant are reported.

Concerned Faculty:

Prof. Mitali Shah
Prof. Payal Zaveri
