

### **Industrial visit to M/S Mahavir Synthesis Pvt. Ltd.**

An industrial visit to M/s Mahavir Synthesis Pvt. Ltd, Surat and M/s Anupam Rasayan India Ltd, Surat had been organised by Chemical Engineering Department for BE- III (6<sup>th</sup> Sem) students. A Total of 40 students benefited from this visit. Also they were accompanied by three faculties viz. Prof. Rashmita Patel, Prof. Anshul Shurma and Prof. Vivaksha Patel.

The first visit was at MSPL where its officials briefed us about their Waste Heat Recovery Section (ECO FARM) after that we have seen the actual working of ECO FARM where they generate energy from Textile waste.

Next visit was at M/s. Anupam Rasayan India Ltd, Surat. Here we were explained about step by step

procedure of commercializing any product and how the actual commissioning of any equipment is carried out. They have also shown the actual Process Flow Diagram (PFD) and Process Instrumentation Diagram (P &ID) to the students which further cleared their concepts. Then the students visited the production plant along with Utility and Effluent.

Treatment Plant (ETP). Also they were shown expansion site. Below are some pics about the visit at M/s. ARIL.
