### Report of Seminar on Ill Effects of Radiation on Human Body from Wireless Gadgets and Technologies

We are glad to inform you that M.C.A Department had organized an awareness seminar on “**Ill Effects of Radiation on Human Body from Wireless Gadgets and Technologies**” on 28<sup>th</sup> February 2019 under the banner of “Share What I Gain”. The main objective of this workshop was to make the students aware of the harm done by the wireless gadgets and technologies and precautions that can be taken to reduce the ill effects of it. Details of the talk can be found below.

<b>Speaker:</b>	Ms. Zalak Gohil
<b>Designation:</b>	Director, Modicare, Surat
<b>Date &amp; Time:</b>	28 <sup>th</sup> February (3.30 pm to 4.30 pm)
<b>Venue:</b>	MCA Lab
<b>Targeted Audience:</b>	First and Second year MCA Students and Faculty Members from MCA Dept.
<b>Coordinated By:</b>	Prof. Prashant Keswani
<b>Participants:</b>	80 Students and Faculties of MCA

The session started with introduction of Ms. Zalak Gohil by Prof. Prashant Keswani. Prof. Gayatri Kapadia, HOD, MCA Department, presented a memento by following the tradition of SCET.

Ms. Zalak Gohil shared the knowledge of how radiation adversely affects the human body. World Health Organization has put radiation from mobile phones in the same category as smoking cigarettes. She also emphasized on the fact that children below 12 years should be prevented from using any such devices as radiation affects them more as compared to adults.

Towards the end of the session, she demonstrated how radiation from these devices makes us weaker with the help of couple of student volunteers.

We would like to thank Dr. Chirag Paunwala, Convener, SCETAA, for providing such an informative platform. We would like to thank Prof. Gayatri Kapadia, Head, MCA Department for encouraging us to conduct such workshops. We would also like to extend gratitude to Dr. Vaishali Mungurwadi, Principal, SCET Engineering, for her continuous support. We would also like to thank Shri Bhaskar Cheruku, Registrar SCET, for making the process hurdlefree.
