

SCET PHOTOGRAPHY CLUB (SPC)

A Report of a “Picturesque Photography Competition”

“A picture says a thousand words” is an old saying and is very true. The ability of a camera to make an exact record of a particular moment makes this device very intuitive part of recording. The **SCET PHOTOGRAPHY CLUB (SPC)** has organized a ‘**Picturesque Photography Competition**’ on 26th September, 2019 at EC AV Room from 9:00 am to 4:00 pm for SCET students. The competition was exclusively organized by the SPC students’ team.

The subject of a photograph is an object in the photograph that determines the theme of the photograph. The competition was based on Objects Photography wherein many objects and backgrounds were kept for the use. Participants were instructed to click a best photo with the use of any number of given objects and backgrounds by setting up their own lightening conditions.

Insights:

- The event was structured by setting up various objects along with the background items.
- 4 Basic DSLR cameras were provided to the participants by the SPC team.
- Participants were allowed to choose any number of objects and the suitable backgrounds and lighting.
- Participants had setup their own frames and were allowed to click one best photo within 3 minutes.

This distinctive and exciting photography competition attracted the students to participate in a huge number. We received an overwhelming response from the students.

Conducted by	SPC Students' team
Date/Time	26 th September, 2019, 9:00 am to 4:00 pm
Venue	EC AV Room
Target Audience	SCET Students
Coordinated by	Prof.Bhumika Patel and Prof. Satish Dokiparti
